Projects

SousChef

<https://souschef.stevenwenzel.com>

- Developed meal planning, organization, and storage app with Python and JavaScript
- Built backend as RESTful API with Flask, exposing endpoints for frontend consumption
- Designed frontend user interface utilizing modern React conventions including hooks and functional components
- Incorporated secure user authentication using JSON web tokens generated and verified by the API server

Anomaly Finder

<https://anomalies.stevenwenzel.com>

- Created science fiction-themed storytelling app with Python and JavaScript
- Stored entries in SQLite database accessed via ORM
- Incorporated CSS-in-JavaScript styling for modular, customizable components
- Enabled users to save their favorite entries without login credentials by utilizing the browser's local storage
- Secured app from inappropriate entries by requiring manual verification

Easy Draft

<https://wenzstev.github.io/writingsprinter>

- Created React web app that helps people write first drafts of stories, articles, and essays
- Allowed global customization settings by incorporating Redux store
- Provided customization options for draft workspace, including timers and prompts, by creating a responsive, streamlined user interface

Education

Washington University in St. Louis, St Louis, MO

Bachelor of Arts, 2017 | Major: English

Minors: Computer Science and Writing

Relevant coursework: Computer Science I, Computer Science II, Data Structures and Algorithms, Logic and Discrete Mathematics

Experience

RTJM, PLLC, San Antonio, TX

Head Copyeditor

September 2017 - Present

- Converted primary source documents, such as police reports and emails, into digestible legal briefings
- Spearheaded the creation of office documentation, allowing for faster employee training and the retention of institutional knowledge
- Halved new client intake time by revising and consolidating client paperwork
- Explored new organizational systems for the office, enabling transfer to a paperless system using modern web apps and digital forms

Student Technology Services, St Louis, MO

Student Manager

August 2016 – June 2017

- Directed and organized operations of 25+ student staff, including hiring and training new technicians
- Mediated interpersonal disputes to ensure proper team functionality, including disciplinary action when necessary
- Repaired and upgraded computers, resolving issues deemed too complex for junior staff to handle
